Luxury Products for Hotel and Restaurant Projects

2016 COLLECTION

Craster enables hospitality brands to engage with their customers and create loyalty through the design and manufacture of intelligent, high quality products.

We are passionate about creating beautiful, durable products that emphasise the qualities of the underlying materials from which they are made. In a time where natural materials are increasingly scarce, it is one of our core principles to ensure that our products last the natural life of the materials themselves. We ensure that our timbers are sourced from sustainable forests.

Many of the world’s great hotel and restaurant groups are our long term clients, and we work globally with a fantastic group of distributors.

Design sits at the centre of our culture. We are therefore proud to offer a product design service that allows our clients to completely differentiate themselves through the creation of unique products that communicate their brand.

As always, we would love to hear your feedback.

RESTAURANT COLLECTION

FLOW COLLECTION:

Flow is a dynamic system of modular display units, organised around a gastronorm footprint. The system gives you the flexibility to showcase your creativity in a multitude of contexts. Available in 1.1, 1.2, 1.4, 2.4, 3.9 sizes

Flow Rustic Collection - Oak

The basis of the Rustic range is modular gastronorm sized trays, available in two heights, which stack for easy storage. The interconnection between the trays enables a multitude of display options. Add height by elevating these with our stainless steel Flow frames, or use our marble and glass plinths to add material contrast. Rustic Trays are also compatible with our countertop and floor standing stands, the interchangeable trays allow efficient replenishment of display between front and back of house. The Flow Trolley features retractable angled shelves (which fit the Rustic Trays) and an extendable leaf. These combine to enable a sumptuous mobile buffet display.

TRAYS + PLINTHS

- Gastronorm sizing - 1.1, 1.2, 1.4, 2.4, 3.9
